Darraweit Guim Calendars

What a great effort, we sold out of 2013 calendars. With this excellent outcome for our first attempt at calendars we are inspired to do them again for 2014.

We are now on the lookout for any photos, either taken in or of Darraweit Guim which might be appropriate for the 2014 calendar. If you think you have a suitable photo please speak to Viki Spedding (5789 1237) or email it to speddingmv@gmail.com.

We will need your photos by the end of September but sooner would be great.

Happy snapping

Leave early

Leaving early is the safest way to survive a bushfire. People die during bushfires trying to leave their homes at the last minute.

Know your trigger to leave

- Code Red—leaving the night before or early in the morning is the safest option.
- Extreme—Consider staying only if you are prepared to the highest level
- Severe—Well prepared homes that are actively defended can provide safety

Don't rely on an official warning to leave. Bushfires can start quickly and threaten lives and homes within minutes. For more information, advice on where to go and how to plan your route please visit:
